Please see the manuscript "CrypticIBDcheck: an R package for checking cryptic relatedness in nominally unrelated individuals", published by Source Code for Biology and Medicine, and available at

`http://www.scfbm.org/content/8/1/5`

NB: As of version 0.3-1, `snow` has been replaced by `parallel` for splitting computations across a cluster. `parallel` includes all functions from `snow` that are used by `CrypticIBDcheck`.
